sites

1 Forrest instance

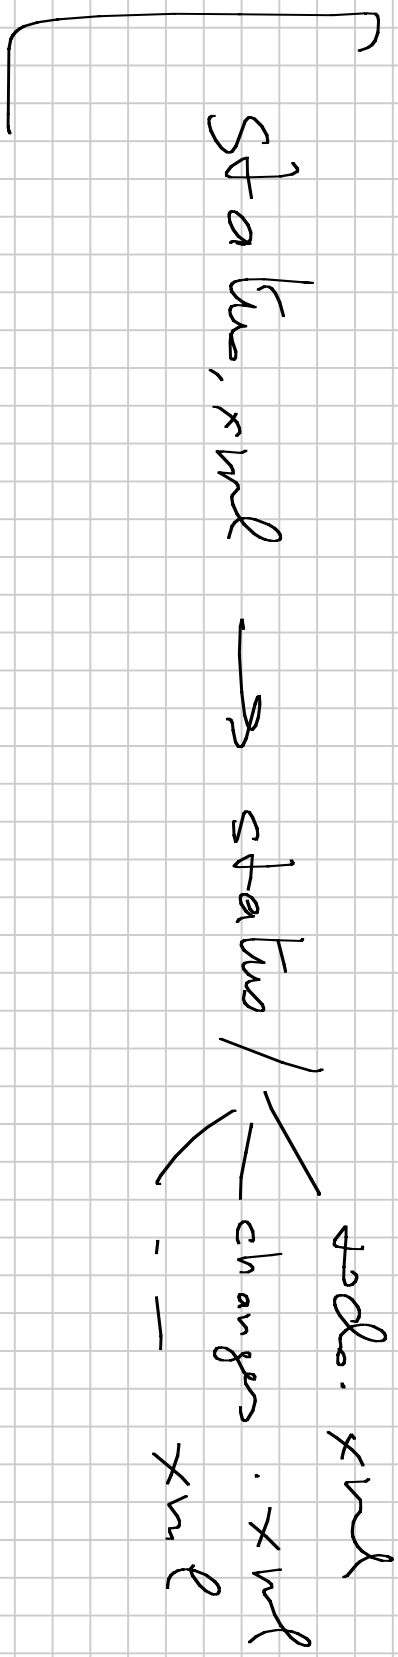

forrest.properties {  
- "skin to use"  
- plugins  
- location (map)

skins.conf.xml  
{  
- views  
- themes (css)

sitemap.xmlmap → a block (plugins)

cli.xmlconf → try to get rid of it

context / xdocs / ... → side /

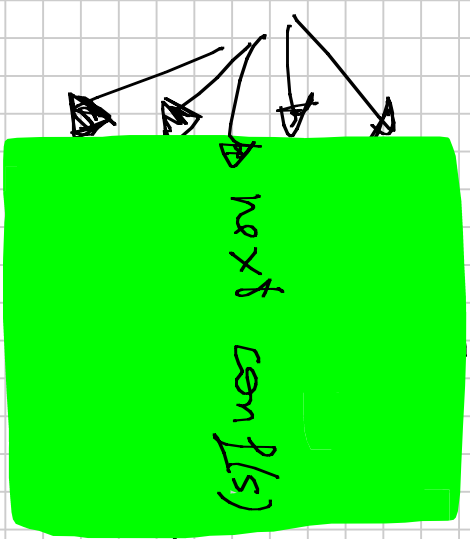

note: when to put status items on docs in plugins?
